### LIQUID BREAD.

AN ABSOLUTELY PURE EXTRACT OF  
MALT.

A VALUABLE TONIC AND REMEDIAL  
AGENT.

INDORSED AND RECOMMENDED BY THE  
ENTIRE MEDICAL FRATERNITY.

Of all medicinal preparations that have been put  
upon the market in recent years, the extract of  
malt has proved itself one of the most valuable  
as a tonic or remedial beverage. It has received  
the unequalled recognition and support of phy-  
sicians, and is freely prescribed by them in many  
cases, especially where the nervous or physical  
systems have been impaired by disease or over-  
work. The house of "DAVID NICHOLSON,"  
of this city, has recently introduced a pure malt  
extract of high character, made at their request  
and under their suggestions by Mr. Adolphus  
Busch, and which is popularly known as "NICH-  
OLSON'S LIQUID BREAD." From its life-giving  
and health-restoring properties. A sample sub-  
mitted to Dr. F. L. James was made the subject  
of a chemical analysis by him, and the result of  
his investigations are given in the appended cer-  
tificate.

"T. LOUIS, April 25, 1884.  
"W. F. COULTER, Esq., National Druggist—Dear  
Sir: Having submitted the Nicholson malt ex-  
tract to examination, as requested, I take pleasure  
in reporting that I find it to be that the pro-  
prietors claim for it. The results, as shown in the  
following summary, are necessarily only approxi-  
mate, but are sufficiently accurate for all practical  
purposes.  
The specimens submitted consisted of an  
effervescent fluid, dark brown by direct and of a  
deep ruby color by transmitted light, resembling  
in general appearance and behavior a very superi-  
or article of port wine. Its taste was, however,  
much milder and more pleasant than port wine,  
being somewhat sweeter than beer, the sweetness  
masked and covered by a very pleasant bitter,  
derived evidently from hops. The specific gravity  
of a sample fresh from the bottle is 1.022 plus.  
Amount of extractive matter in 50 cubic centi-  
meters of the fluid is 3.36 grammes, or about 8 per  
cent. Amount of alcohol, per cent., is 2.34 plus.  
The extractive matter is apparently identical with  
the "extractum malis" of Trommer, or of the  
German Pharmacopoeia. It consists almost en-  
tirely of malt sugar, dextrose, being free from  
fatty acids. The fluid contains a very large  
amount of diastase, as shown by the fact that it  
easily liquefies an equal bulk of gelatinous starch.  
This fact, its low percentage of alcohol, its effere-  
scence, its delightful taste and odor, all combine  
to recommend Nicholson's malt extract as being  
a most nourishing beverage, and the best article  
of the sort that has ever come under my examina-  
tion. Respectfully,  
"FRANK L. JAMES, Ph. D., M. D."
